DETAILED ACTION

Double Patenting

Claims 1-15 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 18 of U.S. Patent No. 09/289,600. Although the conflicting claims are not identical, they are not patentably distinct from each other because Claim 18 (09/289,600) and claim 1 (present application) are identical except for the ranges of the region in which the color of blue falls upon. However the ranges of the present application, in particular the ranges between the points of (0.28, 0.32) and (alpha, 0.32) falls within the ranges of the already patented art of (0.4, 0.4) and (alpha, 0.4). It would have been obvious to one with ordinary skill at the time the invention was made to manipulate the current ranges with the existing technology since the present ranges already is encompassed within the prior art.
